

Final Report

Image Analysis of Park Infrastructure

Date: 2026-06-25
Prepared for: BC Parks
Prepared by: Sarah Gauthier
Nour Shawky
Ssemakula Peter Wasswa
Mehmet Imga

Table of contents

1	Executive summary	3
2	Introduction	3
2.1	Background and problem statement	3
2.2	Refined objectives	3
3	Data	3
3.1	Data sources and collection	3
3.2	Size and characteristics	3
3.3	Data quality, limitations, and preprocessing	3
4	Data science methods	3
4.1	Approaches considered	3
4.2	VLM Approach	3
4.3	Embedding-based classification	3
5	Data product and results	3
5.1	The Data Product	3
5.2	Results	3
6	Conclusions and recommendations	3
7	References	3

1 Executive summary

2 Introduction

2.1 Background and problem statement

2.2 Refined objectives

3 Data

3.1 Data sources and collection

3.2 Size and characteristics

3.3 Data quality, limitations, and preprocessing

4 Data science methods

4.1 Approaches considered

4.2 VLM Approach

4.3 Embedding-based classification

5 Data product and results

5.1 The Data Product

5.2 Results

6 Conclusions and recommendations

7 References
